# Adhesion

Hits: 3,019

**Description:** Save money in your business by streamlining preventative maintenance and rebuilds of equipment for your IT department. Parts inventory management, equipment tracking (computers, monitors, etc.), work order management, and calendars enable Adhesion to generate (JIT) Just-In-Time inventory reports and alerts! This service manager is totally scalable from a small IT department or shop-floor to a multi-department IT organization (even a full blown manufacturing facility). Automatically integrates with our help desk manager, CRM, project manager, time sheets manager, SHOPPING CART, and order management applications. The ASP source code is included and this software allows for UNLIMITED USERS!

## Resource Specifications

**Adhesion**, Jan 13th, 2006

Reviewed By: sniedens

Adhesion has reduced our work load as well as enabled us to compile lots of information to one area. Before we purchased adhesion our work order system was in excel and error prone. Now, adhesion controls the work flow by the supervisors and technicians. This program also gives us the ability to archive our information. The support has been outstanding
