# The Mail List System

Hits: 2,004

**Description:** This is an expanded version of the Filemail system. It will allow your client to add themselves to your list server while they get back issues of your newsletters. Be sure to look over the fields in the delivery HTML document to set your system up. You shouldn't have to make any changes to the script for it to work.

## Resource Specifications

<b>Version:</b>	1.2
<b>Price:</b>	Free
<b>Date Added:</b>	Jan 15th, 2000
<b>Last Updated:</b>	Jan 15th, 2000

**Average Visitor Rating:**  **0.00** (out of 5)

Number of Ratings: 0 Votes

**Average Member Rating:**  **0.00** (out of 5)

Number of Reviews: 0 Reviews
