FormStep

Hits: 1,170

Description: Choose from a library of field types to layout your HTML forms - text, date and time, multiple choice, plus many more. Collected form data is stored on our secure server so you don't need to worry about managing a database. Just login and download submitted form data into Excel for further analysis or import into another program. You can also enable anonymous users or create specific user accounts to access your forms. Create as many forms as you like for free - don't pay until someone fills out and submits a form.
