Download3000 Extended Module

Hits: 1,399

Description: This is an extended version of Download3000 module. With this module you can integrate a whole Download3000 software archive (almost 4000 articles) to your PHP-Nuke powered site within one minute. The best of all is the fact that you can earn money through the RegNow affiliate program. If users will buy software from your site you will earn commission. You need just register yourself at RegNow and add your affiliate ID to module's config.php. That's all. This Extended version integrates additional sections to your site: Top20 downloads, Latest additions and Advanced search so archive is fully searchable now. It also contains new Search block and modified Top10 block.
