EZsite WebNotes

Hits: 3,461

Description: With EZsite WebNotes you can quickly post information to a selected area of any web page. Just place a server-side component (no client-side ActiveX, VBscript, Java, or Javascript) on your web page, use the WebNote Manager through your own browser to enter a note, and it's posted immediately. Although WebNotes is easy enough to allow novice users to edit web site data without knowing HTML or FTP, advanced users can still utilize HTML within any note. New multi-user password system allows independent sites to be controlled by different users.

Resource Specifications

Version:	2.0
Platform(s):	Win NT
Price:	Free Trial/\$349
Date Added:	Jan 19th, 2000
Last Updated:	Jan 19th, 2000
