ASP Upload and DHTML File Manager with ActiveX Recursive Upload Control

Hits: 2,997

Description: Very easy to use and install DHTML/ASP based File Manager for IIS/ASP Servers. Provided is the full Upload Manager component that handles file uploads via the browser with real-time progress bar displaying the progress of the file upload. Interactively upload, download, copy, delete, rename files and folders and more. Exclusive ActiveX Control built in also included which allows you to select multiple files from 1 window to upload or recursively upload an entire folder. Set limits of the number of files per upload as well as total upload size
