FlexBookkeeping 2.5

Hits: 1,742

Description: FlexBookkeeping is designed for hosting companies to manage unlimited recurring orders and edit status of all accounts easily. It is ideal for webhosts using 2checkout and other third party payment process which support "Passback Parameters" - Clients will see signup form after a credit card is successfully processed. The way is to reduce massive junk signups.

Feature:

- 1. User friendly interface
- 2. Newsletter function
- 3. Backup solutions

...
