# Tagger Luxury Edition

Hits: 1,610

**Description:** Tagger LE is a tagboard (mini message board) that will add visitor interactivity to your website and a form of communication to one and another. Tagger's many features include an Administration panel, IP Banning, Smart Auto Refresh, Smilies, Imposter prevention, and more. A perfect addition to a website lacking interactivity. This solution uses a Flat File Database (MySQL is not required). Installation is very quick and easy, along with customizable look (uses CSS). This tagboard also is XHTML & CSS Compatible for you Web Standard guru's.
