PHP Barcode

Hits: 15,480

Description: You can generate barcode images on the fly with this PHP script. Use it on your web pages or save it to a file. It supports Code 39, Code 93, Standard 25, Interleaved 25, PostNet & Royal Mail 4-State. Control over almost all aspects of barcode style: width, height, wide to narrow ratio, label printing, image rotation, check digit. It's FREE !
