Clickbank adwords

Hits: 1,052

Description: Clickbank Adwords is a new program that serves clickbank® based affiliate products in your website . Our service customizes the whole of Clickbank® products with your nickname, and converts it to a simple html code that can be pasted on your website. These clickbank® based ads resembles google® adsense® ads.

Hundreds of web masters, affiliates and opportunity seekers are preferring clickbank-ad-sense-script ads over google® adsense®. Google® adsense® is known by many and highly popular especially to webmasters and publishers.

Unlike google® adsense® program that pays per click, our program pays you per every sale you make in over 11,000 clickbank® products. Some webmasters who have tried to run our clickbank® based ads together with google® adsense® ads reports that clickbank based ads pays many times more that adsense® from google®.
