LiveHelper

Hits: 1,165

Description: Livehelper is a customer service tool for your website that enables web site visitors to instantly receive live help from your personnel. Visitors to your web site simply click a Live Help button and are connected with one of your representatives. Your representative then assists the visitor by providing information, links, graphics, or even guiding them through your web site. Livehelper features include Real Time Spell Check, Customizable Interface, SSL Secure Chat, Voice Chat, Remote Control and more. Try all of Livehelper's features risk free for 10 days; visit our site to learn more.
