Media Finder

Hits: 608

Description: This software was professionally designed by Blackhorse Productions during the making of a motion picture. It helps reduce editing time and keeps track of all multimedia files located within your computer.

It comes with easy to use features like file renaming, creating Edit Lists, creating virtual names, high power search engine and much more... Media Finder also allows you to hide secret movie, graphic and audio files in an encrypted folder which is only accessible by the user. Try it free for 30-days.
