Connect Daily Web Calendar

Hits: 4,530

Description: Connect Daily is a web-based calendaring system. It allows multiple users to add and edit calendar events using a web browser. The calendar display can then be directly integrated into your web site. It provides advanced capabilities for managing resources and facilities. Approval processes allow many users to edit calendars, with the assurance that all items added are approved. Supports Ajax web site integration and downloading events into Microsoft Outlook and Palm PDAs. Export is also available in RSS 2.0 XML format, iCal and CSV format.

Resource Specifications

Version:	3.3.5
