php Content Editor and Publisher

Hits: 11,852

Description: If you're seeking a simple, compact and efficient php Content Editor and Publisher, this may be your solution. This php script contains an integrated version of TinyMCE – a platform independent, web based HTML WYSIWYG editor – a secure login system, an intuitive layout and workflow, customizable styling, the option to preview your content/news/events, etc. in a textarea viewport before submitting and publishing to your site, an extremely small codebase and the ability to easily deploy the Content Editor in multiple locations throughout your site. Visit our site for a fully-functional demo!

Great news updating script..., Aug 16th, 2007

Reviewed By: ReggieSanders

These guys have some nice scripts! I like this because of the ease of installation and fact that it can be easily deployed in different areas of your site. Makes small text/formatting updates a breeze!
