# Userplane Webmessenger

Hits: 3,094

**Description:** Userplane Webmessenger is the next generation of instant messaging software: beyond text messaging, Webmessenger provides rich, web-based, text and streaming audio/video communication for any website. Leveraging Macromedia's robust Flash Communication Server technology, Webmessenger enables community, dating, corporate and collaborative websites to rapidly deploy state-of-the-art text and a/v communication for their users. The flash app is easily and seamlessly integrated with existing user databases, login systems, and buddy lists through fast and simple XML and any web scripting language: PHP, .NET, ASP, ColdFusion, XML, JSP, etc.
