Go Top 100 is the best Top Site List I have ever used. Remotely hosted, they have nearly 100% uptime. I have never had any trouble logging in and no one has ever reported trouble voting for a site. Unlike several others, this one allows for each site to have both banner and description, there are no BIG ADS (which I DESPISE) and when you vote for your own site or anyone else that is a member, the list loads right away. I recommend this one to EVERYONE!
