Cron

Hits: 1,316

Description: Do you need cron to work, but just can't seem to get it done? I'm showing you what I've discovered in hopes that you'll be able to get your own up and working. My server has cron and I've been able to put it to good use over the last several months. Cron is used on my site for an reminder service that's offered. You can click on my Free E-Mail Reminders and try it out!

I also use it to send myself monthly e-mails that remind me of bills, birthdays, etc.

Resource Specifications
