Free Instant Link exchange (directory or single swap page) Hits: 4,029

Description: The link script will completely automatize your reciprocal links exchange. It will require webmasters to place a link to your website on their site before they can add their link to your links page. In the link script script you have a robot, that will crawl all URLs where your reciprocal link should be - if the reciprocal link wasn't found it will automatically remove link to that site from your links page and warn the partner webmaster, if his link works again, link will be reestablished automatically.

Features : The script is Free

The script is made to economize time, and mails, it makes everything for You

No need to have a database, or to install anything, but if you want use your own database you can

Possibility to check if the page has a particular theme

Partner link is tested every 3days, if there is a problem, link is frozen, waiting for next check

If backlink is ok again, link will automatically reestablished

Everybody is constantly aware of changings with mail

Partner page is tested to be conform to google guidelines (will be improved regularly)

The script can be used on a unique page, integrated in any page, or used as a directory

The script is available in french and english
