Amazon Web Services - Instant Bookshop

Hits: 1,610

Description: Use this script to generate an interactive book or any other Amazon product list for your website. When a user clicks on an item they are taken to the relevant product details at Amazon. If they purchase an item within 24 hours you will be paid the commission (providing you have registered as an affiliate). This easy to use script works for Amazon.co.uk and Amazon.com. Full installation instructions and FAQs can be found on the website. Remote hosting option available for non PHP web hosts. MySQL not required.

Resource Specifications
