# PACT

Hits: 4,890

**Description:** Port Accounting & Collection Tool (PACT) is an SNMP-Tool to do port-accounting for any device that conforms to SNMP standards and has at least a certain amount of SNMP-querieable data (e.g. octets in/out, etc.).

**1.0 update:** Bug fixes with Cisco port descriptions, no more 32bit counter overruns on overview, plus a debug functionality
