Hits: 4,701

**Description:** Ready-to-use, professionally designed flash templates and html templates in a lot of assorted styles from cars, financial and business templates to image gallery, sports and wedding. A template is a complete site design that can be opened with Macromedia Flash, filled with content and extended to suit particular needs. Individual templates or discounted packs are available as well as flash website intros and flash customization services. Upon purchase you receive a .ZIP file with the source files including Photoshop .PSD, .HTML, .SWF and Flash .FLA files. Win a commercial template by taking a simple survey.

**not as described & not for beginners**, Dec 15th, 2005

Reviewed By: khtang

Brought 5 & only downloaded 1. Tested the movie immediately. Lots of error messages. Template's buttons, symbols & layers are not labeled. Diffcult to personalize (MX 7). FAQ support is lacking to trouble shoot my problem.

Requested a refund after spending 8 hrs to exercise "not as describe" on the user agreement. I feel ignored because I haven't received a response. Can't respect a company that doesn't honor it terms. I can't use them, have nothing to upload and can't get my money back. UGH!
