Simple Random Frase/File includer v2.0 Hits: 4,364

Description: Simple random file includer.V2.0

This script will include/render randomly all files you have in directory, like txt, html or image files.

Usefull if you want to randomly display Complex o large Text/QUOTES blocks or complete html files or random images.

Update random objects is as simple as Add/remove files from your preferred folder.

No db needed

With some extra (user) code you can also display flash animations or something else.

New version 2.0 enhanced and more flexible.

Great Script, Nov 15th, 2005

Reviewed By: wesupyo

Just as it says, this is an extremely simple script. Works great with no problems! I needed one out of two files to load randomly on certain pages. All I had to do was upload those files to a specific directory and told the script where to find it. Then included the script into my pages. NICE JOB!
