Cache Lite Admin Module

Hits: 849

Description: If you use PEAR's Cache Lite caching system, then you need this! With this add-on you now have the ability to change and store all settings for cache Lite rather than having to change the file code each time. Refresh a single block or all blocks. 3 lines of code are all that is needed to Cache a block!

Resource Specifications

Version:	1.0.0
Platform(s):	linux, windows, freebsd, osx, sun
