FLAM Player

Hits: 13,988

Description: FLAM Player is a Macromedia flash based MP3 player. Using high end Macromedia Flash (swf), MySQL, XML and PHP, FLAM Player is an online mp3 player with full featured administration backend for webmasters and easy use for final user.

Make different playlists, arrange by author, name, random, read ID3 tags, edit songs infos, NO manual xml files edition, and more... Powerfull and easy to use administration backend.

Easy installation, no particular hosting needed: all php/mysql hosts should work! Host your music on your website host and stream it from another one, or just host the player on your website and host your music elsewhere. At least just a PHP/MySQL host is needed, and just ONE!
