# ASP News Manager - Digital Interchange Hits: 1,932

**Description:** Our News Manager lets anyone publish content on the web effectively and easily with only a couple clicks. The administration area is a secured area with an intuitive interface that will let you manage all of your content. You can upload new attachments, create category groups, disable postings and much more. The News Manager also allows you to publish up to 10 news postings in RSS format so you can share and spread your news content with others. All the functionality you need to get your messages out to your audience.
