## SPFOL JSP FORUM

Hits: 2,576

**Description:** A jsp forum application solutions, SPFOL JSP FORUM, bulletin board (forum) built on the Java J2EE technology (Jsp/Servlet and JavaBean), which improves performance and stability. SPFOL JSP FORUM provides the ability to create an electronic discussion forum, where people can post messages, read messages posted by others, and reply to them with easily.

Allow your users or customers to comment on your products or services; personalize your customer service by allowing staff to interact with your customers; enable staff to collaborate and discuss, in private, away from public eyes, or just relax with friends in your corner of the web. SPFOL JSP FORUM is designed to meet your specific requirements from your community, whatever they might be.
