PHP Stock Quotes

Hits: 5,449

Description: For those of you who would like to offer your visitors stock quotes (20 minute delay) then here's your chance! Best of all... it's 100% free! With a simple javascript or PHP code, you can let your visitors have free stock quotes provided by YOU! Update: I've added the green (up) and red (down) colors to the daily change to reflect the true nature of the quote. This is a professional layout that's sure to enhance any site that offers their visitors stock quotes.

has many options that make this the best script for the price.

I do, however, wish the instructions were a little more clear. After calling the support number and speaking with jimmy, he updated the zip files with both of my suggestions. He gives great service and is very friendly. Would recommend this to anyone with even the smallest desire to add quotes to their site.
