# Livemon Web Analytics

Hits: 1,135

**Description:** Livemon is a robust web analytics and log analysis tool that instantly creates detailed and insightful reports that help you understand your users and customers; and evaluate your online business strategy.

Livemon Web Analytics packs in cutting-edge reporting technology, ingenious algorithms for super-fast data processing, and yes, it is easy on your wallet. Livemon uses open-source technologies like PHP and Mysql, and thus obviates the need for separate investments on software.

Livemon offers unmatched benefits and features and is available for both Windows and Linux OS.
