No Commission Tracking, Dec 23rd, 2004

Reviewed By: support@designerwiz.com

We ran this script for 33 days and asked Bravenet.com to validate whether the script was actually tracking any of our referred signups.

After Bravenet reviewed our setup they responded that they are NOT tracking affiliate "tracked" commission leads from this script function. The signups are simply an affiliate referral that is NOT tracked for commissions.

The script does work as far as the signup forms functions are concerned .. and it works well. Just don't expect \$1.00 per lead referrals as it indicates you will get.
