# HTPASSWD Password Generator and Manager

Hits: 19,231

**Description:** This is a .htpasswd file and site access management script that will automatically: Add new users, Delete existing users, Add new groups, Delete existing groups, and Add and remove group members. All these functions can be accessed from a web-based form. The encryption is based on characteristics used in the source-code of the NCSA httpd server htaccess, but ported to perl.

## Resource Specifications
