Simple Forum

Hits: 2,545

Description: This is a basic forum script. Lacks some features but is simple to modify.

- Fully intergrated secure MD5 member system including register, login and change avator.
- two user classes, staff and regular. Staff can create threads in staff only boards and regulars can only reply to them threads.
- Quick and easy reply to post under all topics.
- Easily create new threads/topics.
- Quick edit post feature under all users posts.
- Controled by sessions for extra security.
- Easy to theme, just edit a simple CSS stylesheet file.
- Edit images, replace existing forum images with yours in the images directory.

Originally made for a simple PHP game, as a planning board.
