User-friendly and feature-rich news administration system and the best way to publish your articles online. Ideal solution for my agency.

Excellent Script!, Jan 28th, 2005

Great, easy to use script. Excellent features, great value for the money. I also give 5 stars to their support guys, you've been very helpful!

Good product and fast support!, Aug 2nd, 2005

I've used phpwordpress for 3 months and it's been great for me. Enterprise licences is probably their best deal, especially with an add-on module. As for their support, when you email them, they usually respond within 12 hours max.

Great Article/News CMS tool, Jun 27th, 2007

I purchased and used Vivvo CMS after a comprehensive testing and reviews of several similar scripts and tools. I'm so glad to have found such a great product which keeps improving and getting more feature-rich every few months.

Try it, you won't be disappointed!

Has its quirks, but it's an excellent piece of software!, Feb 2nd, 2008

Having seen many, many article/news management programs out there, I was glad to see something like Vivvo come along. The many positive aspects of Vivvo outweigh the negative aspects. They have excellent documentation, a good support system, an easy to use template system and a pretty good user base to trade ideas. This software is still fairly new, so there's still some things to work out. But, all in all, it's much better than a lot of the stuff that is currently on the market. Two thumbs up!

These Guys Earned My Respect and My Purchase, Jul 26th, 2008

Overall, this is a great system, with many strong features. I had some trouble with the free trial version, but found their tech support prompt and helpful. They earned my purchase. Had a small issue (my own mistake) after purchase, and they quickly fixed it for me. I've been developing sites since 1996, and I've seen it all. This company definitely seems stable and fully professional.
