## Motion LiveChat Support System

Hits: 2,924

**Description:** Provide live chat support. No monthly fees unlike its competitors - only a \$49 one time fee including installation and setup + unlimited free upgrades for the current version. Motion Live Chat Support System is intended to be used as a software for providing live chat support to your web site visitors. However its application is not only limited to providing live support, as it can be used for live advertising to the visitors of your site, or providing live sales support & assistance.

Motion live chat support system will make your customers feel safer, knowing that there is real live support out there who can help them in real time. This will increase the confidence in your company and make the visit to your site an interactive experience. Motion LiveChat Support System is highly recommended for all kinds of web sites that need live support help desk, such as web hosting companies, on-line stores, support centers, marketing departments, etc.\
