EZGallery

Hits: 16,940

Description: EZGallery is installable from the browser and requires no knowledge of HTML or ASP. Admin has full control of the gallery, being able to edit all galleries and images and suspend or delete members. Admin can set the number of galleries per user and has a maintenance mode for clean up. The public can upload images to public directories, Members can create/edit/delete galleries, images and comments. It also has a "Send this image to a friend" feature. Admin can set the max width and height of the images to be uploaded as well as the size of the file. It has three styles built in and you can create more in the admin section. Version 2 has many other features! Uses a MS Access 2000 database - AspJpeg - AspUpload
