# SiteMapper for phpNuke

Hits: 1,279

**Description:** SiteMapper script will improve search engines crawling for phpNuke based website. It will represent most of the data from website database to search engines, like Google and Yahoo, and that's by "SE friendly" URL-s. This quarantees major boost of the traffic to phpNuke based website, coming from search engines. And whats important - installing of the SiteMapper script is as easy as possible - just copy one file to right place and start using it!
