DigitalImageAlbum

Hits: 9,189

Description: Your pictures just do not look right on other people's web browsers? This Java applet allows you to adjust at real-time. It serves as an online digital image album. Main features include dragging, zooming, brightening, sharpening, contrasting, tinting, saturating, and resetting control on photos. Search methods include pull-down list, sequential browsing, and keyword entry.

Resource Specifications

Platform(s):	linux, windows, freebsd, osx, sun
