Professional Notepad

Hits: 706

Description: Professional Notepad is a advanced tool that allows you view and edit HTML, CSS, JavaScript, PHP, PERL, SQL, Delphi, C++ and other languages source code.

It is a powerful editor supporting the features you've always dreamt about, such as syntax highlighting, Code Templates, bookmarks, unlimited text size, URL highlighting, line numbers, powerful search and replace, multiple undo/redo, Drag&Drop, color printing, etc.

I get r4eally annoyed when downloads are not upfront about their cost. This looks all the world like a free download. It runs without any pop ups warnings or invitations to buy. It's only when you dig deeper that you discover it's a 30 day trial.

Please don't waste our time with your deceptions. if your product is good enough people will pay for it.
