Zoom Search Engine - Add search to your site with ASP!

Hits: 3,767

Description: Zoom is a free package that adds a powerful custom search engine to your website. No complicated server-side setup procedures, just click and index from the convenience of your own Windows computer. Features include: "Google-like" context descriptions, wildcard and exact phrase, search logging and statistic reports, spelling suggestions, and more. Available for PHP, ASP, JavaScript or CGI. Commercial editions support PDF/DOC/XLS/PPT/SWF files and larger websites.

Resource Specifications
