## DMXReady Job Listing Manager

Hits: 2,372

**Description:** DMXReady Job Listing Manager is a great tool for creating and maintaining a job board/positions available section of any ASP-enabled website. Visitors can easily navigate its user-friendly interface, and can view available jobs by location, job type, or even by doing a keyword search. Prospective candidates can email their resume directly from the job ticket, or forward to a friend who might be better qualified. But the greatest advantage of Job Listing Manager is the ease with which the HR department can update. Through one main admin page accessible through any standard web browser, anyone can easily add, delete, and change job listings or even categories and departments. No need for high-tech web masters -- once installed anyone with basic computer skills can master the system in minutes!

### Resource Specifications

<b>Version:</b>	1.0
<b>Platform(s):</b>	linux, windows
