AJ PPC

Hits: 1,135

Description: The AJ Square Inc has come up with new innovative and revolutionary PPC Search engine is PHP and Mysql based software. So it is fast and easy to use and install. PPC search engine can be easily installed using installer script Show banners in search results. Sites are only listed under keywords they have bid on, if site's member has enough money on his account. Clicks are counted; the visitor is redirected to that site instantly. Any new listing becomes active or a new listing is not active until admin approves it. It depends on option, which can be changed by admin at any time. Earn extra revenue by using affiliate search results
