Flash World Map from TheAnotherWorld

Hits: 989

Description: TheAnotherWorld presents custom flash world map, a dynamic concept flash interface for information about each country. This map can be used for such purposes: real estate map, software for search and estimation, travel catalog/time zones, prices for services in accordance with countries (e. g. telecommunication). Besides, the system can be attached to GPS, to show an object on the map, you just need to know its longitude and latitude.
