It's working great on my site and my chatters are loving it! It allowed me to offer my visitors a professional, full featured webcam chat at a price I can afford. Nothing I've added to my site has increased my traffic and site popularity so much.

I was very impressed with the software the first time i saw it! Everything went smoothly from the first contact i had with the people from the Live Support up to the point when i bought the software and had it installed. Everyone was very polite, prompt and willing to attend to my every need. I have to say that the professionalism they showed has made me look forward to working with them in the future!

**now, it seems that are going fine and in a promptly way**, Aug 6th, 2005

As promised, i said that i would post another review, as soon as they started working in our solution.

Until now they are going fine and without problems, even though the lately start of the project.

until now it is all goign fine and i recomend them.

When the project is finished i will post a final comment here, but i needed to make this "on-going" review.

Please Remove also our last "bad" review. They are working fine now. It was a misunderstood....Please remove our last "bad" review about camdate.

Thanks
