frame redirection script

Hits: 3,676

Description: This allows a webmaster to have a service like what appears on a lot of the big link sites, when you click on a link the site displays a frame at the top with their info and the link is displayed in a frame underneath. This script will do this, also shows how put ion your own advertising if required in the top frame.

Had to do some tweaking to make things work all spiffy, but if you have a decent understanding of basic HTML you will have no problem customizing this script.
