No Spam Signature

Hits: 887

Description: NoSpamSig is a full website for creating spam free email signatures. Features multiple color selections, images for top email names like Gmail,AOL, MSN, Yahoo!,and Hotmail. Users can quickly and easily create spam free signatures using the software. Great as a complete site or just as an add-on to an existing site. Installs in minutes, CSS and HTML 4.01 compliant, requires no database, and is under 75k total. The script is easy to change with php includes for the header, footer, left, and right area. The site uses a single CSS file for any changes. Stopping spam is serious business and this script can get you into the market fast.
