# Live Quote Applet

Hits: 1,094

**Description:** Live Quote Java Applet presents detailed continuously updated data on one instrument at a time. With a multi-row grouping of instrument fields, you can let your site visitors monitor real-time values for a stock or fund. The symbol displayed can be specified from applet parameters, along with other customizable features like fields, colors, fonts etc. We are offering for our clients a customizer tool where you can set-up available parameters and produce HTML code required for applet instalation into your page.

## Resource Specifications
