Extreme Pay Per Click

Hits: 1,647

Description: We are the creators of the Extreme Search Engine. Make money by letting your visitors bid on keywords in your search engine. Includes full admin features, signup bonuses, adult filter, an affiliate program, and payments through 2Checkout, Click Bank and Pay Pal. Plus, run a full directory system with category editors and Sponsored Ad Boxes just like google! Uses the fast and efficient MySQL technology. Google uses a database, so should you. So don't be fooled by cheap knock-offs that only rips of results from other sites.

Resource Specifications

Platform(s):	linux, freebsd
