Simple Advertisement System

Hits: 2,218

Description: This advertising system is intended for small and large websites that need a reliable advertising system, that can withstand heavy traffic, and yet be easily managed. It has been tested on thousands of pages at one time, on a high traffic website, and been proven to withstand consistent high traffic over extended periods of time without crashing or having data files corrupted as many systems do. This program requires SSI.

Resource Specifications

Version:	2.0
Platform(s):	Unix
