Particle Wiki

Hits: 9,623

Description: Particle Wiki allows you to set up a wiki in minutes! Easily edit together pages using standard wiki mark-up or even enable HTML. Archive copies of each page to look back at older versions; revert to a previous version in just a few clicks. Automatic spam bot detection and blocking. Find out what links to each page and control settings through the admin panel. Fully skinnable and comes with three existing skins.

Resource Specifications

Version:	1.0.3
