## FusionCharts - Open source Flash charts for dynamic PHP apps.

Hits: 33,073

**Description:** FusionCharts lets you create animated, interactive and data-driven Flash charts & graphs for your PHP applications. It makes full use of the fluid beauty of Adobe Flash to create compact, interactive and visually-arresting charts. However, you do NOT need to know anything about Flash to use FusionCharts. All you need to know is your PHP scripting. You can use it with any database of your choice. FusionCharts offers over 50 2D and 3D charting styles for you to choose from, including advanced charts like scroll and data-selection charts. You can buy the entire source of FusionCharts as part of Developer License. New: FusionCharts FREE released with a set of 20 free to use chart types and native PHP API.
