SitePal animated characters

Hits: 2,713

Description: Speaking animated characters (avatars) for your web site. This Flash animation website feature is cost-effective, enriches user experience and is proven to increase sales.

Design Speaking characters through an easy to use online interface.

Add your characters to any web page.

Edit 20 Default Models to create any character likeness. (See our Model Gallery)

Customization features include:

Age

Gender

Hair Style

Skin, hair and eye color

Make-up

Clothing and accessories

Add your own voice or any voice. Update spoken audio as often as you wish.

Lip-Synchronization is automatic.

Upload your own backgrounds.

Implemented in Flash. No plug-ins needed!

Works with any web browser on Windows or Mac.

The product comes bundled with:

5 scenes: publish up to 5 unique SitePal characters on 5 different pages.

Audio and background libraries for your use.

Works on dialup and broadband, with an average character size of 60kb, and optimized audio streaming built in.

Compatible with any back end programming language (such as ASP, PHP, JSP, Python, etc.)

Unlimited free email support.

Now there is a new way to make your website come alive. Just call in and record an audio message by phone. You can have your VHost SitePal™ automatically lip sync your audio message, so that you can update your website when you are on the road. Just call in and record, and the VHost SitePal™ will speak with your voice

on the web in real time!
